

Serious Illness Conversation Guide

with Dr Lynn Twigley &
Dr Martyn Horsfall

- When you have difficult conversations with patients, do you sometimes wonder how to start?
- Are you confident you are discussing patients' prognosis in a way that allows them to really understand what you are telling them?
- Do you understand their fears and worries, and what is important to them?

This workshop helps clinicians feel more confident to have quality conversations with seriously ill people.

Dates for 2025:

(8.45 am to 1 pm)
