

HNZ Fundamentals of Palliative Care

FOPC is now a blended learning programme to give an overview of Palliative Care. There are five online modules and three face to face Workshops.

Start with **Essence**, then complete the other topics in any order: **The Palliative Care Approach, Managing Pain & Long-term Illnesses & Care & Support at the End of Life**

For more information and to enrol, visit the Knowledge Hub online at knowledgehub.hospice.org.nz

Once you have completed a topic, you will get a certificate to recognise this online achievement. However, to complete the FULL programme you need to attend the three corresponding workshops. These can be done individually or as a 2-Day option.

NOTE: You must complete the online training **before** attending any workshops. Bookings required.

HNZ Palliative Care for Caregivers

One day training ideal for new carers looking at caring for people with palliative needs. Course explores palliative care philosophy, pain and symptom management, communication, last days of life and bereavement. Bookings required.

HNZ Syringe Driver Training

There are some changes to the delivery of the Hospice NZ Syringe Driver Competency Programme. While we will continue to offer the 2.5 hour face to face **Initial Syringe Driver** training and 1.5 hour **Refresher Syringe Driver** training, we are also offering a new **Blended Learning** approach.

This blended learning consists of 2 hours online training, followed by a 1.5 hour practical competency workshop. Sign up for the online learning at paled.elearning.org.nz

NOTE: You must complete the Online training **before** attending the practical workshop for the Blended Learning Option. Bookings required.

Advance Care Planning (ACP) Level 1A

A workshop for health professionals wanting to help grow the use of ACP, learn how to document ACP and support patients with ACP. Bookings required.

Build Your Knowledge

A study day for nurses who have already completed the FOPC and wish to deepen their assessment skills & palliative care symptom management knowledge. Learning will be through care based discussions and small group problem solving. Bookings required.

Dying in Different Cultures

This Masterclass topic was extremely popular in 2021 so we have made it available again this year.

Target audience: Health professionals - nurses, doctors & allied health. Bookings required.

Breakfast Lectures

The Palliative Care lectures are held on the 1st Thurs of each month from 7.30 – 8.30am via zoom-based webinar. Please register for each lecture at hospice.org.nz/education-training/palliative-care-lecture-series/ or you can attend these at Elms House, Cranford Hospice - Bookings required.

Elms House: Training Room

Elms House, Cranford Hospice
300 Knight Street, Hastings 4122
